JANIS Memo #65

MEMORANDUM FOR: Contributors to JANIS 78.

Subject: Instructions for JANIS 78.

1. JANIS 78, Kamchatka, will include the peninsula of Kamchatka north to top of map (approx. 63°N) and west to Gizhiga River. The Ostrova Komandorskiye will be included but not Shimushu-tō and Paramushiru-tō.

2. The accompanying work map will be used as a base for all maps showing the whole area. Many details shown on this work map, such as roads, volcanoes, and many of the place names, will not be included on the final base map. Each contributor should indicate what place names, etc., he wishes to appear on map in his chapter. In printing, the base will be reduced to 12x8 inches. More detailed maps will be reproduced without reduction and placed in plans pouch.

3. Maps of any portion of the area may be drawn to scale deemed suitable by contributing agency, but should be of the proportions (after reduction, if necessary) indicated in instruction Topic 5B.

4. For spelling of place names the work map is the standard. For names not on work map, use AMS S301, 1944 revision. Names not found on either above sources will be submitted to BGN for verification before plotting on maps. It is suggested that generic term Reke for river be deleted, and only specific name be used.

5. Coastal description will begin at Ust'-Apuka (60°25'N, 169°35'E) and follow a clockwise direction around the peninsula to mouth of the Gizhiga River (62°N, 160°25'E).

6. The deadline for submission of all copy (text and illustrations) is 1 December 1944.
